This report has been developed in an environmentally responsible way following rigorous production processes based on an international standard for environmental control (ISO 14001). Its manufacture promotes a responsible forest management, not only environmentally but also socially and economically.

The paper used is manufactured with 100% recycled fibers, it is ecological and chlorine-free, without chemicals or pollutants. Certified with the European Ecolabel FR / 011/003.

---

This annual report reflects the desire of Salesians Sarrià to become a European quality college, open to the world and able to respond to the current needs of students, teachers and companies.

You can download the full version in Catalan and Spanish on our website [www.salesianssarria.com](http://www.salesianssarria.com)

INTERVIEW WITH JOSÉ ABASCAL,  
PRINCIPAL OF SALESIANS SARRIÀ

“We have been consolidating educational innovation in college for more than ten years”

With 135 years of educational experience, Salesians Sarrià works to offer its students an education adapted to the times by including new courses of study and adapting its training offer to market needs. We are also heavily committed to internationalisation through learning English in classes and with international programmes.

What are the most important changes in the area of educational innovation at Salesians Sarrià?

We recently obtained the **innovative college certificate** from the Catalan Department of Education, a distinction we obtained by dint of our work in the application of new in-class methodologies through **Project-Based Learning (PBL)** in our Vocational Education and Training (VET) courses or **Cooperative Learning**, which is applied to the Spanish Baccalaureate.

For more than 10 years now we have been working on **improving innovation** and on the most suitable methodologies for each one of the courses of study that we offer. Our teaching staff are retrained constantly

in order to adapt their classes to the needs of the current world.

In recent years you have been working on adapting Dual Vocational Education and Training (Dual VET). What are the benefits of these courses of study for the students?

In recent academic years, we have applied **Dual VET** to more than 90% of our VET courses. This methodology allows the students to do **a large part of their education in-company**. In this way, the students have a greater chance of getting a job and can learn by working on real projects. This format provides them with extra motivation in their training and are studies that are increasingly better appreciated by companies on the market.

**The International Baccalaureate is one of the college's greatest commitments. How have the first few years of these studies gone?**

The International Baccalaureate (IB) is kindling increasingly greater interest among students since it allows them to **study at any national and international university** of renown. The first class of students from the school graduated this year with performances above the European average. Moreover, we opened a third line this year and have more than 120 students doing this course of studies.

*"Salesians Sarrià has obtained the innovative school certificate"*

**In an increasingly more global world, how is internationalisation applied to post-compulsory education?**

Salesians Sarrià implements different initiatives in order to **promote language-learning**, particularly English. In some VET courses, **more than 40% of the classes are taught in English**, and more than 33% of classes in the Spanish Baccalaureate pathways are taught in English. Moreover, a group of **language assistants** are also involved in the classes and collaborate with the teachers in order to give the classes in a foreign language.

Our students are given the chance to participate in exchange programmes with foreign students, get **work experience in European companies** or do part of the course in a college abroad. Learning English is also fostered among the teachers through conversation classes in the college and exchange programmes. Almost half of our teaching staff is certified to give classes in English.

**Solidarity is one of the cornerstones of Salesians Sarrià. What projects is the college currently carrying out?**

We engage in **supportive activities** at home and abroad. **"Share the Light"**, a finalist project in the area of education of the Premios Fundación Telefónica al Voluntariado, is being carried out in

'City of Joy' (Zambia) by a group of Higher-Level VET students who do maintenance work in an orphanage. Moreover, we work jointly with the Social Services of the Barcelona City Council on the **"Repassem Junts"** project in which Spanish Baccalaureate students give revision classes to a group of about 45 children and adolescents from the district of Sarrià.

**One of the pillars being promoted is sustainability. On what projects is the college working?**

Besides being part of the **Xarxa Escoles + Sostenibles**, this year we opened our **green roof**, the winner of the "Green Roofs" project sponsored by the Barcelona City Council. We have set up an area of 191 m<sup>2</sup> in the college yard, where photovoltaic panels, two wind turbines, an insect hotel and a spacious vegetation area have been installed to enable the students from the Renewable Energies VET course to do part of their work experience at college.

*"This year we opened a third line of International Baccalaureate, currently attended by more than 120 students at the college"*

Besides this project, the college has always addressed sustainability in its classes, promoting energy-saving or the sustainable management of household and industrial waste.

**What is the college's social commitment?**

Salesians Sarrià has a **clear social vocation** that is part of one of its strategic lines. We are a welcoming, integrating, quality college. We have a clear and responsible vision of what inclusive education in Vocational Education and Training means.

*"We offer more than 90% of our VET courses in the Dual option"*

## OUR COLLEGE

**Salesians Sarrià works to ensure that students have a family setting with a direct interaction with the entire educational community. To this end, we hold different training and cultural activities to make the students feel part of the college.**

The activities that we carry out are part of the **Pastoral Educational Programme** that seeks to provide students with a comprehensive education involving different activities, actions and **supportive projects**. Moreover, we are committed to **language-learning** through our **International Relations** department. Salesians Sarrià organises different healthy and sustainable activities such as the new **green roof in the college yard**.

## Quality teaching is one of the commitments that has characterised Salesians Sarrià in the course of 135 years of experience in technical education.

Over the years, we have gradually adapted our educational offer to meet educational, training and business needs. We currently offer a **quality post-compulsory education**: the Spanish Baccalaureate and Vocational Education and Training studies.

The college is characterised by a family environment with a close and direct approach. Our teaching staff responds to students' training and occupational needs. One of the objectives is **for the students to become reference professionals**, independent and responsible individuals in the job world.

One of the commitments made by Salesians Sarrià is to pedagogical innovation, which is why we work in order to implement **Dual VET and Project-Based Learning (PBL)** in the VET courses. Our Spanish Baccalaureate and International Baccalaureate are intended to foster **cooperative learning** among students.

Our **innovative model of educational action** is based on the relationship between the student and the enterprise, since they begin to maintain a relationship from the very outset of their post-compulsory education. Moreover, we have a **Job Centre** that places students and companies in direct contact with each other.

**Language-learning** is one of the mainstays of all professionals. For this reason, **we promote International Relations** through exchange programmes, conversation classes in the college, work experience programmes and stays in European countries.

Salesians Sarrià aspires to being a reference college that is committed to culture, peace, internationalisation, solidarity and health. This is why we have joined the **UNESCO Associated Schools Project Network (ASPnet)** and have created the **UNESCO Associated Schools Work Team**.

### SALESIANS SARRIÀ, A MODEL COLLEGE

- We have an innovative model of educational activity based on the relationship between students and business.
- Our International Relations Department coordinates work experience and stages in different European countries.
- We offer professional pathways among Middle-Level VET courses, Spanish Baccalaureate and
- Higher-Level VET courses and engineering degrees at the EUSS.
- We issue professional certificates to complement official qualifications.
- Students and families can use our educational psychology and careers service.
- The Job Centre connects students and companies for job placement.

Our college:

## PASTORAL EDUCATIONAL PROGRAMME

**Our pastoral educational programme stresses the fact that the college, as a privileged educational space, must go further than the mere academic training of its students. Our aim is the integrated education of the individual: values, attitudes, a profound sense of life and of transcendence and competencies.**

**Salesians Sarrià** seeks to follow the model of person defined in the era of Don Bosco by the Preventive System: being an honest citizen and a good Christian.

The college must become **a space of innovation and educational and evangelist research** at the service of young people and society at large.

We strive to offer our students high-quality **theoretical and technical training** to enable them to become competent professionals. With this objective in mind, we also strive to guarantee a **solid human training** that will help them in their overall process of maturation.

The leitmotif of this academic year is the slogan: **DISCOVER YOURSELF**. It is intended to invite students to look inwards, since only by knowing ourselves fully can we accept and love ourselves as we are in order to become fulfilled and happy individuals.

Young people must **see themselves the way they really are** in order to understand and find their place in their environment and in this way, and at the same time, gradually discover the profound meaning of life.

Discovering our deepest self also allows us to discover the path of God. This year's slogan also calls upon us to go out and **develop our personal talent to the maximum extent possible** and establish meaningful relationships.

An opportunity to show yourself  
to others the way you really are...

## DISCOVER YOURSELF!

## SUSTAINABLE, HEALTHY AND SUPPORTIVE COLLEGE

The college works on **three basic lines: solidarity, sustainability and a healthier education**. This is why we organise different activities so that students will accrue first-hand experience in them.

### SUSTAINABLE COLLEGE

Salesians Sarrià engages in different sustainability activities to bring its students closer to this value. This year we have installed a **green roof** that provides students with a green space in the school yard. We work on this idea in the classrooms by raising awareness among the students through **sustainable waste management**. We also seek to prioritise energy-saving: one of the actions we have promoted this year includes the implementation of **new water-saving urinals**.

### HEALTHIER COLLEGE

We nurture the participation and the commitment of the entire educational community in order to achieve a healthier college. For this reason, Salesians Sarrià is part of the **FEM SALUT programme** of the Public Health Agency of Barcelona. Our Educational Psychology Service (SAPP) holds **Emotional Education workshops** designed to help students cope with stress. We also encourage the involvement of parents through the organisation of a cycle of **educational lectures on adolescence**.

### SUPPORTIVE COLLEGE

Our college is also committed to solidarity-based teaching, a **cross-subject value** that is addressed in all years. To this end, we have held different activities for the entire community: the **“Repassem Junts”, “Share the Light”, “Reparem Junts”, sale of fair trade products, food collection, solidarity cakes projects** or **“The Bosco Run”**, an annual race to raise funds for charity, among other activities.

Our college:

## SUPPORTIVE COLLEGE 'REPASSEM JUNTS'

In order to promote a more supportive college, Salesians Sarrià conducts two initiatives that are developed from inside the college and are intended to instil this value throughout the community.

### 'REPASSEM JUNTS'

'Repasssem Junts' is a community project born of the college's collaboration with the Social Services of the District of Sarrià. This project offers children from the neighbourhood a space for coexistence, education and recreation. The children that participate can **do their homework with the help of some of our Spanish Baccalaureate students** and also enjoy a **healthy afternoon snack** and **playtime** at our college's facilities.

### EACH JANUARY WE HOLD THE BOSCO RUN TO PROMOTE THE PROJECT AND TO RAISE FUNDS

The charity run that we hold at the end of January held its **3rd edition with more than 150 runners**. The run was conceived as a charity initiative to support and promote the "Repasssem Junts" project in Sarrià. Every year, the run symbolises **sportsmanship and solidarity**. The event is divided into different categories for people over the age of 3 years.

**One of the projects that are part of the Supportive College is “Share the Light”, the international volunteer work that we do in the “City of Joy” community in Mazabuca (Zambia).**

Every year, Higher-Level students and teachers travel to this African country **to do maintenance, volunteer and cooperation work with the orphanage** of Daughters of Mary Help of Christians in Zambia.

*City of Joy* is a care home for girls at risk of absolute social exclusion. This centre provides them with a homely and safe environment to grow up in. Salesians Sarrià has detected three urgent unmet needs that would improve the life of these girls:

#### **LOOKING AFTER THE HEN HOUSE**

Last summer we built a hen house to raise chickens in a controllable and sustainable way. Our priority is to look after this space, since it leads to a **qualitative improvement in the nutrition** of the young girls and young people at the orphanage.

#### **BUILDING BRIDGES**

One of our objectives in this project is for the young girls, on turning 18, to **be able to continue with their education**. With this idea in mind, we intend to set up a system of grants so that the transition from living in care to independence does not mean that they have to lose everything.

#### **BUILDING OF A WELL AND A WATER PUMP**

One of our projects in the pipeline is the building of a well and a water pump in the community. This installation **will improve water conveyance and provide a controlled irrigation system**. Through this action, the children from the home will be able to create their own vegetables and greens.

Our college:

## SUSTAINABLE COLLEGE GREEN ROOF

**Within the framework of our participation in the ‘Xarxa d’Escoles + Sostenibles’, this year we inaugurated the first green roof in the “Green Roofs” programme sponsored by the Barcelona City Council.**

This proposal is part of the **“Barcelona 2020 Green and Biodiversity Plan”** and is intended to bring about the interaction and the promotion of nature in the city.

The “Green Roofs” have become a strategic element in order to achieve a **greener and more sustainable city**.

Our **college yard has been transformed into a new “green lung” in the district of Sarrià**. The space has a surface area of 191 m<sup>2</sup> and a green area that includes **photovoltaic panels**, two **wind turbines**, an **insect hotel** to assist in the pollination of the vegetable species, a **drip-based irrigation system**, **aromatic plants** and a **vertical wall**. This space is the college’s first green area.

*Our college yard has become a new “green lung” in the district of Sarrià.*

The “Green Roofs” competition implemented by the Barcelona City Council short-listed **10 proposals from the 45 that were submitted** from all over the city.

The green roof presented by Salesians Sarrià was the winner from the Sarrià–Sant Gervasi district. The project involved a **cost of €60,000, 75% of which was put up by the Barcelona City Council**.

The installation of the green roof also has a pedagogical function since it can be used by the students on the Renewable Energies course. The first step was to install the college's photovoltaic panels. From now onwards, **the students on this course can do the maintenance work** and acquire work experience.

*The installation of the green roof has a pedagogical function, since it can be used by the students on the Renewable Energies course.*

The **Eix Verd** company was selected to install the green roof and also took care of the assembly of the aromatic plants area, the vertical wall and the drip-based irrigation system.

Here are **some of the benefits** that the green roof project will provide to our college:

- **Promote energy-saving.** The installation of the twelve photovoltaic panels will help to reduce the college's energy bill.
- **Improve air quality.** It has a positive effect on the health and quality of life of the entire educational community.
- **Relieve the urban heat island effect.** The green roof reduces the temperature increase in closed areas, such as the college yard.
- **Increase biodiversity.** The installation of the insect hotel and the aromatic plant area will improve the cityscape.

**Do you want to see the new green roof of Salesians Sarrià? Discover it here!**

**WATCH THE VIDEO >**

Our college:

## INTERNATIONAL RELATIONS

### Salesians Sarrià is working hard to consolidate itself as a quality European college.

The International Relations department collaborates in educational matters in order to **ensure that our students receive a comprehensive education and training**, a personal, professional and intercultural training that guarantees a good point of departure in the European employment and academic market. We **promote foreign language-learning** by participating in international projects and fostering the internationalisation of the educational community.

#### MULTILINGUAL SCHOOL CERTIFICATE

We have the multilingual school certificate awarded by the Escola Cristiana de Catalunya Foundation that acknowledges us for **promoting the internationalisation of the educational community** through participation in international projects and language-learning.

#### EXCHANGE PROGRAMMES

We give our students the chance to participate in **exchange programmes with schools from abroad**. This programme allows the students to travel to a European country and to host a student from another country in their own home.

#### ERASMUS+ PROGRAMME

The Erasmus+ programme, besides improving professional prospects, also provides greater scope and a greater capacity to establish social relationships. It is also part of the **European and International Training Mobility and Cooperation Programme** in professional education managed by the Catalan Department of Education.

#### LANGUAGE COURSES

We offer our students two language course modalities at midday: **English conversation classes** and **preparatory courses for the First Certificate official exam**. All groups are small and the teachers are experienced native speakers.

#### TEACHER TRAINING

We offer teachers the chance to participate in different international programmes in order to receive training in English and go on **training stays in European countries**. We also provide training with the **CLIL methodology**.

### EXCHANGES IN THE ACADEMIC YEAR 2018/2019

Dürer Gymnasium, Nuremberg, Germany

Fritz-Winger-Gesamtschule, Ahlen, Germany

Nykøbing Katedralskole, Nykøbing, Denmark

## PROGRAMME TESTIMONIALS

**SANTIAGO FUENTES**

*VET teacher*

HOLLAND, NOVEMBER 2018

"I was given the opportunity to visit the Deltion College in Zwolle in Holland. There, I shared teaching experiences with the members of the teaching team of the ICT department. I had a very interesting time participating in classes and pedagogical methodologies with students and teachers in the speciality".

**CRISTINA COMA**

*VET teacher*

FINLAND, MAY 2018

"I travelled to Finland between May 14 and 19 with a team of 7 Vocational Education and Training teachers to participate in a KA mobility in the Erasmus+ Programme. It was a very interesting experience, not just because of the visits, but also thanks to the experience shared by all of us".

**GONZALO CALVÓ**

*VET student Erasmus+ grant*

AUSTRIA, JULY 2018

"This summer I picked up work experience over a 3-month period in an Austrian company. The experience is very positive, since being away from home helps you to learn how to cope with problems. Work-wise, you get to see and learn from foreign companies, learn about their routines and apply them to your own working environment".

Our college:

## THE BEST WAY TO PRACTISE ENGLISH

**A group of six foreign university students collaborate with Spanish Baccalaureate and VET teachers to improve the students' English.**

English is increasingly more necessary in the job world. This is why Salesians Sarrià works to allow its students to complete their education with a **good and certified level in the language**.

One of the actions that we have been implementing over the last six years is our **collaboration with European universities** by hosting their students to get work experience through the Erasmus+ Programme.

The language assistants, whose mother tongue is English, **take part in different VET and Baccalaureate classes**, working on technical questions, reinforcing grammar and also providing conversation support. This training is provided by means of the **CLIL methodology**, which provides the possibility of learning specialised English according to the area of study.

**BARNABY RIDLEY***20 years – England*

“English takes on a whole new dimension for the students with our assistance, since we **give them access to the language** in their professional and everyday life. It provides them with added value when looking for a job because they have a more technical foreign-language training”.

**PHILIPPA ROSE BULLARD***21 years – England*

“Our collaboration with the college benefits the entire educational community, since besides participating in the classroom in the learning of English, **we also work with different departments and teachers** in order to help them in their daily work of preparing classes”.

**JOSEPH GOODDY***21 years – England*

“This programme makes it possible to forge a personal relationship with the students, through which we learn more about them and their concerns. This knowledge also allows us to **adapt the classes to their interests**, focusing on the area of work”.

**ROHAN KARAN GUPTA***20 years – England*

“Collaboration on the programme allows us to explain our customs to them and generates an interest in our country’s culture and current affairs as well as what education in our home country is like. This methodology **generates a relationship in which everyone benefits**”.

**LAURA CONNOLLY***21 years – England*

“Collaboration with the school is a very enriching experience since **we get to teach the students and learn from them at the same time**. Our classes are adapted to their educational needs, we work with a more focused language, while also reinforcing the areas in which they have more concerns”.

**MELIS DEMIRBILEK***24 years – Turkey*

“We reinforce the work done by the teachers. **The teaching staff at Salesians Sarrià have a very good command of English**, and this is basic for the students’ professional future. We teach them a technical and colloquial language that allows them to work on international projects”.

## EDUCATIONAL OFFERING

**Salesians Sarrià offers a broad range of teaching possibilities in Middle- and Higher-level VET, Spanish Baccalaureate and International Baccalaureate. All our courses encourage innovation and entrepreneurship in students through the implementation of different projects.**

We work to offer Vocational Education and Training that takes **companies' current needs** into account, which is why we have adapted more than 90% of the cycles in Dual VET. The Spanish Baccalaureate courses constitute a **cooperative learning environment**, whereas the International Baccalaureate courses are designed to achieve greater student **internationalisation**.

- > SPANISH BACCALAUREATE
- > INTERNATIONAL BACCALAUREATE
- > VET COURSES
- > EDUCATIONAL INNOVATION
- > DUAL VET

### SPANISH BACCALAUREATE

Spanish Baccalaureate studies are intended to provide comprehensive and versatile training to prepare students properly for Higher-Level studies (university/VET). **We offer six different pathways:**

- > TECHNOLOGY                      > HEALTH SCIENCES                      > HUMANITIES
- > SCIENCE                              > SOCIAL SCIENCES                      > THE ARTS

### INTERNATIONAL BACCALAUREATE

The goal of this programme is to equip students with broad, **in-depth knowledge**, with an emphasis on research, creativity and service and access to top universities, without having to sit the Selectivitat (Spain's university entrance exam).

### MIDDLE-LEVEL TRAINING COURSES

Middle-Level VET courses lead to the **qualification of technician**. Practical training, Dual VET:

- > ADMINISTRATION AND MANAGEMENT                      > TRANSPORT AND VEHICLE MAINTENANCE
- > INFORMATION TECHNOLOGY AND COMMUNICATIONS                      > GRAPHIC ARTS
- > ELECTRICITY AND ELECTRONICS                      > SOCIO-CULTURAL SERVICES AND COMMUNITY SERVICES
- > MECHANICAL MANUFACTURE

### HIGHER-LEVEL VET COURSES

Higher-Level VET courses lead to the **qualification of technician or Higher-Level technician**. Practical training, Dual VET:

- > ADMINISTRATION AND MANAGEMENT                      > MECHANICAL MANUFACTURE
- > INFORMATION TECHNOLOGY AND COMMUNICATIONS                      > GRAPHIC ARTS
- > ELECTRICITY AND ELECTRONICS                      > ENERGY AND WATER

### PFI (TRAINING AND INSERTION PROGRAMMES)

These programs are aimed at students over 16 **who have not obtained a degree** in Compulsory Secondary Education:

- > AUXILIARY REPAIR AND MAINTENANCE OF LIGHT VEHICLES                      > ASSISTANT IN ASSEMBLY OPERATIONS OF ELECTROTECHNICAL INSTALLATIONS IN BUILDINGS

### LIFELONG LEARNING

We **encourage lifelong learning** and professional development.

- > PROFESSIONALISM CERTIFICATES LEVELS 1, 2 AND 3                      > PERSONALISED TRAINING
- > STANDARD TRAINING

Educational offering:

## SPANISH BACCALAUREATE

**The Spanish Baccalaureate Is the Post-Compulsory educational stage chosen by students who wish to go to University or go on to Higher-Level VET courses.**

Salesians Sarrià offers **three specialisations in Baccalaureate: Sciences and Technology, Humanities and Social Sciences and The Arts**. These studies have a duration of two academic years and are divided into two totally different areas: one containing subjects that are common to all the courses and another with specific subjects for the area of specialisation.

The Spanish Baccalaureate classes are very active and motivating, promoting interaction between the student and the group in order to facilitate learning. This approach **promotes autonomy and cooperative work between groups**.

Our objective is to provide a **comprehensive and multi-purpose education** that gives them the tools they need to complete their higher education successfully.

We teach students the skills they need for self-fulfilment **and personal development** and to be active and responsible citizens.

Our Spanish Baccalaureate studies promote English, which is indispensable in the academic and job world. Our hard work and effort allowed us to be **certified as a multi-language school** through our participation in international projects and the promotion and teaching of foreign languages.

Our Spanish Baccalaureate is taught in the mornings from Monday to Friday, from 8.00 a.m. to 2.30 p.m., and some afternoons are used for the Research assignment.

Students that wish to do this course must hold the **(Spanish) Compulsory Secondary Education (ESO) certificate or have completed a Middle-Level VET course**.

### COOPERATIVE LEARNING

Cooperative learning **promotes independence and, at the same time, group work**. It is one of the methodologies applied to motivate students and to enable them and their classmates to be successful. This training will also help them in their job future, since they will have accumulated experience of teamwork.

Educational offering:

## INTERNATIONAL BACCALAUREATE

**Salesians Sarrià is authorised to teach the International Baccalaureate® (IB) Diploma Programme that prepares students for access to national and international universities.**

The objective of these studies is to develop the intellectual, personal, emotional and social skills the students need in order to live, learn and work in an increasingly more globalised world. For this purpose, the students **learn in a cooperative environment that fosters their autonomy**, since the teachers act as guides and companions to them in the course of the two academic years.

The Diploma Programme (DP) is intended for students aged between 16 and 19 and **instils an international mentality in them** so that they will acquire a higher degree of personal and social responsibility. The objective of this process is to make sure that students are investigative, well-informed and well-educated, analytical, good communicators, honest, open-minded, supportive, bold, balanced and reflexive.

The International Baccalaureate **is a two-year course recognised for the Spanish Baccalaureate** (LOMCE) + the general phase of the PAU (University Entrance Examination). To be eligible for these courses, students must fulfil the following conditions:

- Hold the title of **Compulsory Secondary Education or equivalent** or have studied in foreign educational systems.
- Pass an **initial interview**.
- Have a **suitable CSE record**.

### ADVANTAGES OF THE IB:

#### IT IS THE BEST ACADEMIC OPTION:

The IB qualification will allow the students to enter national and international universities.

#### SUPPORTIVE STUDENTS:

The IB helps to form reflexive, open-minded and supportive students who can contribute to a better and more peaceful world.

#### MOTIVATIONAL LEARNING:

It generates an active learning attitude in a collaborative environment that stimulates the students' critical spirit and independence.

#### INTERNATIONAL MENTALITY:

The IB promotes and develops an international mentality. It promotes exchanges with other colleges and language-learning.

#### DEPTH OF THOUGHT:

It teaches students to think deep and also acquire a very solid grounding for intellectual, emotional and personal growth.

#### GOOD COMMUNICATORS:

They express themselves with confidence and creativity and are empathetic and respectful of others.

Educational offering:

## VET COURSES

**The objective is for the students to train for a profession in a practical and motivational setting. In this way, the young people who choose this education acquire the knowledge they need to make their way in the job world in a totally professionalised environment.**

Salesians Sarrià features an **extensive range of VET courses** from different professional families that enables us to offer **17 different training cycles**, 90% of them in the Dual format which switches between in-college and in-company training.

### MIDDLE-LEVEL VET COURSES (MVET)

The objective is for the students to acquire the knowledge they need to **find a job**.

- A **Compulsory Secondary Education certificate (ESO)** or equivalent is required for access. It is also possible to study an Middle-Level course if the entrance exam is passed.
- Once students have passed the training programme, they are awarded the **qualification of technician**.
- Salesians Sarrià teaches these classes **from 8:00 a.m. to 1:30 p.m., Monday to Friday**.
- **Academic options:**
  1. An Higher-Level VET course with direct access or admittance through an entrance exam.
  2. Any other Middle-Level VET course or Spanish Baccalaureate.

### HIGHER-LEVEL VET COURSES (HVET)

These courses are intended for students who seek a **practical higher education** that will enable them to make their way in the job world. The students are awarded a middle-management certification.

- Access is gained with the **Spanish Baccalaureate** or an **Middle-Level VET course** or entrance exam.
- Successful completion of a CFGS leads to the **qualification of technician or senior technician**.
- Salesians Sarrià teaches these classes from 3:00 p.m. to 9:00 p.m., Monday to Friday.
- **Academic options:**
  1. Direct access to university studies with official credit recognition, depending on prior studies.
  2. Any other Higher-Level VET course.

## REASONS FOR DOING VOCATIONAL AND EDUCATIONAL TRAINING

Working for projects with **PBL methodology**

Development of **professional competencies**

The promotion of **innovation and entrepreneurship**

**Dual VET**, in-college and in-company training

<b>Sociocultural and Community services</b>	Care of people in a Situation of Dependence	

<sup>1</sup> Recognition for the performance of tasks equivalent to the basic level accreditation given for working with Low Voltage.

<sup>\*</sup> Possibility of dual qualification in three years of study.

Provisional details (subject to change by the Catalan Department of Education).

Educational offering:

## EDUCATIONAL INNOVATION

### Salesians Sarrià has been acknowledged by the Catalan Department of Education for the application of innovative methodologies in Vocational and Educational Training.

**Innovation is one of the cornerstones** of the education that is provided at Salesians Sarrià. In this regard, we promote and foster student participation through the creation of new projects.

For more than 10 years **we have been working to consolidate innovation**, which is why the college has adopted the **Project-Based Learning (PBL)** methodology in its VET courses and we are firmly committed to cooperative learning in Spanish Baccalaureate studies.

**Dual Vocational Education and Training**, in which the student combines their stay at the college with in-company work experience, becomes an **opportunity to improve the student's competency**.

This innovation is also related to our commitment to the **internationalisation of our students** through the promotion of language-learning, participation in different international initiatives and work experience abroad.

#### SPD MAKER

Students of Higher-Level VET in Mechanics have developed a **blister-filling machine** for chronic patients. The system increases the safety of chronic patients when they take medicinal products. The project was a finalist in the Innova FP award.

#### LIDERPACK

A packaging designed by Higher-Level VET students in Design and Edition of Printed Publications for **transporting chocolate Easter eggs** was the winning project in the Liderpack awards in the Best Young Design category.

#### BAUM FESTIVAL

Automotive students participated in the **Junior Biker Build-OFF** where they personalised two high-end motorbikes *in situ*: a Ducati and a Harley-Davidson. The two vehicles were provided by the manufacturers exclusively for the event.

**The transition from the world of education into the job world is one of the most important changes facing VET students. In order to achieve this, the college works hard to make job placement a simple formality. This course offers more than 90% of VET courses in Dual VET methodology.**

The Dual VET methodology **switches between in-college and in-company training**, enabling students to hone their skills and competencies and improve their relationship with the company.

The students thus achieve an **added value** and can cater to the production requirements of the companies that collaborate with Salesians Sarrià.

The college is part of the **Alianza para la FP Dual**, an organisation comprised of companies, institutions and educational centres whose objective is to **improve the employment rate of young people** by offering a quality Dual VET.

Salesians Sarrià has a Dual VEP coordinator tasked with managing this course and with closing **agreements with the 300-plus collaborating companies**.

#### ADVANTAGES OF DUAL VET

##### STUDENTS

Have a greater chance of getting a job as opposed to with traditional VET.

Make contact with the real business world.

Do in-company stays, including registration on the Social Security and with financial remuneration.

##### COMPANIES

Create a seedbed of future employees and facilitate the work-force's generational handover.

Achieve a Social Security allowance for the learners.

Train future workers in the company's culture and customs.

##### EDUCATIONAL FACILITIES

Provide students with a greater chance of job placement.

Extend teaching offer, prestige and innovation by initiating Dual VET programmes.

Increase student demand for the courses offered in the dual system.

## RELATIONSHIP WITH BUSINESS

**Salesians Sarrià strive to establish a direct relationship with companies and institutions in order to help its students to find employment. For this reason, our College-Enterprise Department works on different programmes that are intended to bring students closer to companies.**

The different actions developed in the college include the participation of our students in **work experience programmes** in the 300-plus companies that we collaborate with. This year we opened our co-working space that can be leveraged by former students who wish to develop a project. We also held the “**Salesians Sarrià x Empresa**” working day, which creates awareness of the advantages of Dual VET.

Relationship with business:

## COLLEGE-ENTERPRISE DEPARTMENT

**Salesians Sarrià works to guarantee that its students have a high level of job placement. To this end, we work with different companies and institutions for them to promote and assist the students in practical learning.**

The college has a College-Enterprise department tasked with identifying requirements in the job setting, the most sought-after profiles and skills, as well as the market reality. The main goal is to promote **knowledge exchange and to improve job placement.**

One of the first contacts that students have with the job world is through in-company work experience (FCT) or Dual VET systems, conducted through the Middle and Higher-Level studies in the **companies that collaborate with the college.** This initial experience provides the students with the basic knowledge they will need to subsequently find employment.

*The main goal is to promote knowledge exchange and to be able to improve our students' chances of finding a job.*

Besides the Middle and Higher-Level VET, we offer different **occupational and continuous training programmes** that give former students the chance to specialise in their technical speciality through subsidised courses.

This offer also targets all the professionals that want to re-train in their own field.

**Student job placement is one of the college's objectives. To this end, Salesians Sarrià works in close collaboration with companies and organisations in order to gauge job market needs. The College-Enterprise Department has a Job Centre with numerous positions vacant.**

Students or former students can sign up for this service as job-seekers. They can do so **via an online platform** where they can upload their updated curriculum vitae, specify their skills and qualifications and state the type of employment they are looking for.

Any company from any area can post job offers with the profiles they are seeking to cover. The personnel of the College-Enterprise Department draws up a **short-list of the job profiles they are looking for** and send them to the institutions that wish to recruit personnel.

This service provides a series of **advantages and benefits** to students and collaborating companies alike.

Companies are given preferential access to a list of **highly-qualified professionals** who are also endorsed by the college.

The students also enjoy the advantage of being the first to learn about employment vacancies and can also receive the **support and guidance they need** when seeking employment.

#### CERTIFICATES OF PROFESSIONALISM (OCCUPATIONAL)

## CONTINUOUS IMPROVEMENT AS THE MAINSTAY OF QUALITY

The backbone of our quality policy is the **pursuit of excellent** and being able to cater to the needs and expectations of students, families and enterprises.

In 2009, the Salesian Schools of the Barcelona Inspectorate were the **first group of schools and colleges in Catalonia to obtain the Multisite Quality certification under the ISO 9001:2008.**

The college is certified pursuant to the **ISO 9001:2015 standard**, which allows us to manage all our processes comprehensively and effectively. Certification renewals are the endorsement that **we will continue to pursue excellence** as part of the group of schools of the Maria Auxiliadora-Zona Nord Inspectorate.

[DISCOVER THE QUALITY POLICY >](#)

Relationship with business:

## SALESIANS SARRIÀ X EMPRESA

**The fourth edition of the Salesians Sarrià x Empresa meeting brought together more than 80 individuals from the business and institutional world to help them get acquainted with good practices in Dual VET.**

The day was used to emphasise the **link between education and companies**, one that enables them to share synergies and adapt student training and competencies to the real needs of the job world.

The event also served to present the List of Services of Salesians Sarrià, which describes the different services offered by the college to companies: ranging from the possibility of hosting Dual VET or work-experience students through to different training programmes adapted to job market needs.

One of the Salesians Sarrià's most important commitments is Dual VET. A round-table was held to address the subject of **"How does Dual VET work? The vision of companies and students"**, involving the participation of Xavier Vera, Business Unit Manager of CT Ingenieros, a teacher from the college and two students who participated in a training programme through Dual VET. They all underscored the advantages of Dual Vocational Education and Training, which emphasises the relationship between the student and the company.

One of the cornerstones of Salesians Sarrià is **its commitment to student internationalisation**. To this end, students from the Administrative Management and Administration and Finances VET courses outlined their experience in working abroad.

The head of the HR Development Unit at Agència Catalana de l'Aigua (ACA), Rosa María Teba, explained how her organisation has benefited from the Assessment Service and the recognition obtained through being able to offer part of its administrative workforce more specialised training.

**CT Ingenieros** received the college's acknowledgement for its commitment and engagement in work experience in the company and in Dual VET.

**XAVIER VERA**

*Business Unit Manager CT Ingenieros*

“The Vocational Education and Training model is a very powerful one, our company has recruited 9 of the 12 students who were assigned to CT Ingenieros through the Dual system. From the entrepreneurial standpoint, this methodology helps us to improve the learning process, since it enables us to train them in our culture”.

**EDUARD CALDUCH**

*Dual VET tutor and mechanics teacher*

“We have a win-win relationship with CT Ingenieros, an opportunity to learn a trade with Salesian training experience. Companies respect teamwork, they acknowledge the work we do, and Dual VET provides students with an opportunity to accumulate experience for their curriculum vitae”.

**MARINA CAMBEIRO**

*DUAL VET student at CT Ingenieros*

“As far as the student is concerned, it is much easier to find a job. Improving knowledge and expertise is much easier since you are surrounded by qualified professionals who help you whenever you need them and whenever you have any queries”.

**YEGOR VEPREV**

*Former VET student and CT Ingenieros employee*

“The acknowledgement that you get from the company is important because you feel very useful and motivated to become part of the workforce. Every day you look forward to going to work to demonstrate that you are good enough to do the job for which you are receiving theoretical and practical training.”

Relationship with business:

## SERVICES CHARTER

The College-Enterprise Department collaborates and works with companies in order to gauge requirements and identify the most sought-after profiles and the reality of the job market.

Salesians Sarrià realises that we live in a changing world, which is why **we work to design a college model that can adapt** its educational and training offer to the needs of the modern job market.

Our record is characterised by **implementing an innovative educational action model** with training based on the student's relationship with the company.

### SERVICES TO ENTERPRISES

We offer **different types of cooperation** to companies so that both parties can benefit, including product testing, the sponsorship of facilities, company networking or the leasing of facilities and equipment. Moreover, we provide them with a **job assessment service** with all the information they need to hire a new qualified worker.

### EMPLOYMENT TRAINING AND LIFELONG LEARNING

Our training offer includes a broad range of courses adapted to both market and worker needs in order to **guarantee retraining**. We can provide subsidised and private lifelong training that enables us to cover company needs. We study each case individually in order to offer courses that match each and every profile.

### PROGRAMMED TRAINING

Companies need to formulate a training model throughout their professional life with a view to fostering worker excellence. In this regard, **we reinforce educational innovation** in order to improve employment quality, adapting our timetables and contents to the needs of workers and companies.

### ACCREDITATION OF EMPLOYMENT EXPERIENCE

People without a formal qualification can obtain a professional aptitude certificate or a Vocational and Educational Training qualification. This process involves the accreditation and certification of the knowledge and expertise acquired throughout their work experience. Salesians Sarrià has **the official approval required** to teach different specialities.

### DUAL VET AND WORK EXPERIENCE (FCT)

We collaborate in training our students in a system that switches between the college and the company. The objective is **to improve students' adaptation to the workplace in a suitable way** and one that enables them to hone their skills as learners and future workers. A team of dual VET tutors and a coordinator work constantly to offer a better relationship.

### INTERNATIONAL RELATIONS

The college's International Relations Department provides advice and support to companies tackling the challenge of internationalising their business. Some of the services that we offer include assistance in **finding students from other countries**, the possibility of participating at international events or for students that wish to do an exchange, among other international services.

### INNOVATION AND ENTREPRENEURSHIP

One of the college's underpinning values **is innovation and entrepreneurship for our students**. This is why we seek to make companies aware of the talent of the students that have been educated and trained at our college. Students can help companies to overcome entrepreneurial challenges, participate in generating new ideas and in the successful implementation of projects.

### LABOUR EXCHANGE

Collaborating companies can preferably access our workforce of highly qualified professionals who have the guarantee of the school. We have the technical formats in industrial profiles and services. From the college **we make a selection of the profiles that most adapt to the requirements demanded** and we send the documents to the companies or institutions.

Relationship with business:

## INNOVATION AND CO-WORKING

## INNOVATION AND ENTREPRENEURSHIP

**Entrepreneurship is one of the values that we foster among students from the word go. Our college is part of the “Entrepreneurship Network” of the Catalan Department of Education.**

The college's training programme has always attached great importance to this fact and our students have always been encouraged to develop **innovative qualities and skills**.

Salesians Sarrià designs and implements **exclusive programmes orientated towards the creation of new companies**, and we also nurture our students' creative spirit.

We seek to provide **support in the development of projects**, and our syllabus also contains subjects that are exclusively oriented towards fostering this entrepreneurial spirit.

The college's innovative and entrepreneurial nature has led it to **promote students' practical participation through subjects** such as Empresa Iniciativa Emprendedora, with career guidance programmes and by participating in talks, events, competitions and awards to motivate our students.

## THE NEW CO-WORKING SPACE

**Former students that wish to continue to develop their professional project can do so in the new co-working space that we have set up at the college.**

Salesians Sarrià offers a **room that enterprising former students** can share in order to push their projects through independently, as well as collaborate, exchange ideas, concerns, knowledge and projects.

This space is intended to **provide support for the creators of innovative projects** who need a place to bring them to fruition. Co-working is intended to continue to create an educational community, providing continuity to the training received at our college, while also furthering the development of our students' entrepreneurial skills.

This space has been conceived and designed to **facilitate teamwork** and is equipped for up to 10 people.

*Co-working is much more than a simple space. It is a new way of working.*

Co-workers **have the following facilities and services:** foldaway chairs and tables, Wi-fi network and power supply, common areas, printer, civil liability insurance, cleaning and maintenance service, among others.

**Discover more about the new  
co-working space in the college**

Office and facilities at your disposal in an  
environment of creation and entrepreneurship.

# THE EDUCATIONAL COMMUNITY

**Our educational community, which goes back 135 years, works to accomplish our students' training objectives, working in a family environment to ensure that students feel totally at home.**

The Salesians educational community is comprised of students, alumni, teachers, non-teaching staff and families. They all participate in different activities **that enable the groups to work together** in order to achieve a quality, comprehensive, social, respectful, non-selective, open and hospitable educational environment.

.....

## The educational community: **LOOKING BACK** ON 2017/2018

September 2017

### BEGINNING OF THE NEW COLLEGE YEAR

A new college year began on 12 September, under the slogan **#LiveYourDream**. On this first day back at school, the students participated in the presentation of the syllabus and had a week-long induction period at the school.

### LANGUAGE ASSISTANTS

In the course of the 2017-2018 school year, the school welcomed **6 language assistants** as part of the International Relations Programme. The Departments of Spanish Baccalaureate, International Baccalaureate and the Middle- and Higher-Level VET with the CLIL methodology were all involved.

### DUAL VET PRESENTATION IN ITALY

The coordinator of Dual VET, Miguel Ángel Buendía, participated in the **29th edition of the Seminario di Formazione Europea** organised by the Italian Opere Femminili Salesiane CIOFS, at which Buendía expounded the school's experience in Dual VET.

October 2017

### SPECIAL MENTION FOR A BACCALAUREATE STUDENT AT THE UPC

The research assignment by the student Clara Rull, “**Depuración de aguas residuales y textiles para proceso físico-químico**” received a mention at the 18th edition of the Architecture, Engineering, Science and Technology Awards of the UPC.

### AUTOMOTIVE STUDENTS AT THE BAUM FESTIVAL

Students from the Middle-Level VET Course in Automotive Vehicle Electromechanics took part in the **Junior Biker Build-OFF**, where they disassembled, transformed and tuned a Harley-Davidson Iron and a Brixton 125 in situ.

### WINNERS OF THE LIDERPACK AWARDS

Four students from the Printed Publications and Multimedia Design and Editing VET won the **2017 Liderpack Award** in the “Young Design Packaging” Category for an Innovative Packaging Design for transporting jam.

### HIKE TO THE TOP OF MONTSERRAT

This year once again, students, alumni, teachers, support staff and monitors from the **Salesian Youth Action group (MJS)** took part in the traditional hike to the top of Montserrat organised by the college.

### ALUMNI MEETING

Some 50 alumni from **the class of 1957** took part in a meeting at the college. The purpose was for former schoolmates to share recollections and experiences and recall their days as technical education students at Salesians Sarrià.

### UNHCR TALK ABOUT REFUGEES

**“Escoltem els refugiats”** was the talk-account which explained the hardships encountered by refugees and how the UNHCR, the UN refugee agency, is responding to this. The **“Return. The road home”** exhibition was installed at the college to coincide with the talk.

### BLOOD DONATION

The college held a blood donation campaign as part of the Supportive School project. Year after year, the school **collaborates with the Blood and Tissue Bank** so that students, teachers, administrative and services staff and relatives can give blood at our school.

### FINANCES, ETHICAL AND SUPPORTIVE VALUES

The students from the Higher-Level VET on Administration and Finance were treated to a **presentation about ethical banking by Gemma Balasch**, manager of the Triodos Bank branch in Barcelona. The talk showed students how to invest money in a responsible way.

November 2017

### TAKING PART IN THE IFEST 2017

A group party of Higher-Level students attended the **IFEST 2017** innovation, science and technology festival. The 6000-plus students that took part in the event enjoyed an event that promotes entrepreneurship.

### EDUCATIONAL LECTURES FOR FAMILIES

In the course of the academic year, the college organised **several educational lectures about adolescence** given by leading experts with a view to catering to the educational concerns and needs of most families.

### TRAINING SESSION WITH GABINO CARMONA

Gabino Carmona, a teacher from the Salesian school in Córdoba, organised a **joint training session for the staff of the EUSS**, the Santa Dorotea School and the Salesians Sarrià, addressing the role of the Salesian educator in the face of an ever-changing society.

### SOCIAL SKILLS WORKSHOP

Students from the Middle-Level VET took part in the **first session of the social skills workshop** organised by the school's Educational Psychology Department with a view to improving their communication skills; how to strike up a conversation, how to say no, etc.

### SALESIANS SARRIÀ X EMPRESA

The college organised **the third edition of the Salesians Sarrià x Empresa meeting**, which is designed to share experiences about Dual VET. The session brought together representatives from the business world and former students from the college.

### BACCALAUREATE STUDENTS AT THE EUSS

A group of students from the Technology Baccalaureate took part in a **material resistance practical workshop** at the Escuela Universitaria Salesiana de Sarrià (EUSS), which teaches a variety of engineering courses.

### SCIENCE WEEK

**Sustainable tourism** was the leitmotiv of Science Week. The students took part in different activities including conferences, guided tours of research centres and chemistry workshops. An exhibition was also held on the college premises.

### BONAPLATA YOUNG PEOPLE'S AWARDS 2017

The research project "les indústries de guerra a Catalunya (1936-1939) i la F-14 fàbrica dels Salesians" received a **special mention in the Bonaplata Young People's Awards 2017**. These awards acknowledge research projects that aim to draw attention to the value of our industrial heritage.

December 2017

### 3RD EDITION OF PORT INNOVA

Students from the Higher-Level VET course on Printed Publications and Multimedia Design and Editing, Administration and Finance, and Cross-Platform Application Development worked together to design an **app to bring the world of sailing closer** to the citizens of Barcelona.

### SOLIDARITY WEEK

Once again this year we celebrated solidarity week. Besides selling supportive products and cakes, the Higher-Level VET students attended the talks given by Arcadi Oliveres and representatives from **“ONG Vols”**, **ASSIS** and the **“Casal dels Infants”**.

### MASTER-CLASS IN SILK-SCREEN PRINTING

The Baccalaureate History of Art students **attended a workshop in silk-screen printing** imparted by the school's graphic arts teachers in the course of which they were taught the characteristics of this printing process. Moreover, they printed out T-shirts and bags bearing the image of Andy Warhol.

### HAPPY CHRISTMAS SALESIANS SARRIÀ

Tania Barona, a student from the Higher-Level VET course on Printed Publications and Multimedia Design and Editing, was the winning **designer of the 2017 Christmas card** class competition.

### AWARD WINNERS IN THE “JOVE EMPRÈN SARRIÀ”

Students from the school’s Middle-Level VET course carried off the first two awards in the VET category at the **5th edition of the “Jove Emprèn Sarrià”** competition. The two projects won the award on account of their originality, creativity, technical feasibility and communication.

January 2018

### CINE FORUM ACTIVITY

In the first semester of the year we held **six film screenings organised by Agustín de Andrés**, one of the school’s Baccalaureate teachers. These meetings, intended to share film-related experiences, were open to the entire educational community.

### SELECTED IN THE VET INNOVATION CIRCUIT

Students from three Middle-Level VET courses took part in the **“Entra al circuit de la Innovació amb l’FP”** project. The project is intended to get students to come up with ideas to respond to the three challenges proposed by the Barcelona-Catalonia Circuit.

### COLLABORATION WITH THE PÉREZ IBORRA SCHOOL

The educational community of the Pérez Iborra school took part in our School’s **‘Share the Light’ voluntary work project** through a financial contribution. They also gave us boxes of clothes, school equipment and hygiene products to take to City of Joy. Thank you very much!

### TALK ABOUT DON BOSCO

Second-year students from the Higher-Level VETs attended the talk titled **“Equilibrios en la cuerda educativa del siglo XXI”**. Gabino Carmona, a teacher at the Salesianos Córdoba, explained how to face up to new challenges and to appreciate the important things in life.

### THE BOSCO RUN

On 28 January, we held the third edition of The Bosco Run, which featured the participation of **over 150 runners**. This is a fund-raising event to finance the **‘Repassem Junts’** project.

### DON BOSCO CELEBRATIONS

The Don Bosco celebrations featured games, sports activities and the traditional raffle. This year, the event also featured **Holy Communion administered by Cristóbal López**, our Provincial Superior, who has been appointed Archbishop of Rabat.

February 2018

### SELECTED FOR THE EUROPEAN YOUTH PARLIAMENT

Six students from the International Baccalaureate participated in the **European Youth Parliament**, the EU's largest political debating platform: the students were selected to participate in the national phase in Córdoba.

### VISITS FROM INSPECTORS

After the Don Bosco week, **we received visits from inspectors** such as Miguel Canino, Carles Rubio, Emilia Rosado, Mercedes Aldaz (FMA) and the management team of the Santa Doro-tea Salesian school.

### GUARRO CASAS TALK

Daniel Domínguez, product manager of Arjowiggins-Guarro Casas, explained the different *de luxe* **coating materials for binding and packaging** to the students of the Printed Publications and Multimedia Design and Editing VET.

### TECHNICAL VISIT TO A WIND FARM

The students from the Higher-Level VET on Renewable Energies visited the **wind farm of Les Colladetes**, located near El Perelló (Baix Ebre) to see how a real wind turbine operates and observe its behaviour from close up.

### PRESENT AT THE YOMO

Projects by the VET students were presented at the YOMO Fair, which is part of the Mobile World Congress. One of the projects showcased was **a robotic arm with artificial vision** that is capable of collecting or stacking targets, in this case chocolate coins.

March 2018

### DON BOSCO AWARD

The students from the Higher-Level VET in Mechanics presented the **SPD Maker project**, a revolutionary machine in the pharmaceutical sector that provides a more effective and safer way of preparing medication for chronic patients.

### ATTENDANCE AT THE TACART

Eduard Marta and Mar López attended the TacArt Congress to talk about the **ground-breaking experience of the new multidisciplinary Apps project** that involves the participation of students from three different training cycles.

### HIGHER-LEVEL VET MECHANICS STUDIES AT ADVANCED FACTORIES

The students of the Higher-Level VET in Mechanics visited Advanced Factories, the industrial processing congress. The students took part in a **networking space** that brings companies and students into contact.

### "WOMEN, TECHNOLOGY AND EMERGING TEACHING METHODS" CONGRESS

Nuria Salan, Elsa Giménez and Ricard Viaplana took part in the "Women, Technology and Teaching Methods" Congress which addressed **innovation in education and alternative evaluation**. It also featured a PBL workshop with **Miguel Ángel Ariza**.

### 2018 "SALÓ DE L'ENSENYAMENT"

Once again we took part in the 'Saló de l'Ensenyament', held on an annual basis in Barcelona. Visitors got the chance to peruse **the entire educational and training offer**, as well as to discover some of the projects carried out by the school's students.

### INTERNATIONAL PRACTICE ENTERPRISES TRADE SHOW

Students and teachers of the Administrative Management and Administration and Finance Course became workers of the make-believe companies **Libros y Revistas EDB** and **Hotel Bosco Barcelona** for the day at the 13th edition of the International Practice Enterprises Trade Show in Fanano (Italy).

April 2018

### TALKS ON AVOIDING ADDICTIVE SUBSTANCES

Students from the Middle-Level VET Automotive course took part in a **talk on avoiding addictive substances**. The talk was organised by the school in collaboration with the social services of the district of Sarrià.

### PREMIÈRE OF THE JOSEPH MUSICAL

Over 200 people had a great time at the Première of the Joseph Musical performed by the **drama group of the MJS of Salesians Sarrià**. The audience was treated to one of the most classic stage musicals.

### IB STUDENTS SELECTED FOR INTERNATIONAL FORUMS

Three students from the International Baccalaureate were selected for the European Youth Parliament, a political debate **organised by the European Union**. The students were took part in committees with the other schools from the Autonomous Communities.

### SANT JORDI

For Sant Jordi we organised readings, musical performances and the handover of the literature and poetry awards. A stall was also set up on the Avenida Diagonal where the **typical roses were sold** for charity purposes, namely to raise money for 'Share the Light'.

### SPORTS' NIGHT

Students, alumni and school personnel held the 2018 Sports' Night. Football, basketball and volleyball matches were organised in which **over 300 people** from the educational community took part.

May 2018

### CATSKILLS COMPETITION

Franco Lacueva, a student from the Telecommunications Middle-Level VET, took part in Catskills, the **Vocational Training Championships of Catalonia**, where the students compete in 33 different trades. The student manufactured a printed circuit board.

#### AGREEMENT WITH REPRISE XEROX

The Reprise company, which engages in printing consultancy for companies, loaned us a **Xerox Digital printing machine**. The system allowed Graphic Arts students to print their course projects in high-resolution using a broad variety of materials.

#### RESULTS OF THE KANGAROO MATHS COMPETITION

Three Baccalaureate students from the school came in in **94th, 162nd and 213th place out of 3,868** in the Kangaroo Maths Competition held at Salesians Sarrià. This event allows students to enjoy mathematics by solving challenges that stimulate their abilities.

#### LIDERPACK PRIZE-WINNER

The Graphic Arts students that developed **Levi-tate**, the easy-to-assemble packaging thanks to a design that features slots made in the actual cardboard, picked up the Liderpack award in the “Young Packaging Design” category.

#### VISIT BY A SCHOOL FROM AUSTRIA

A party of 20 students and 3 teachers from the Austrian **HTL Vocklabruck school** visited Salesians Sarrià to learn more about the Catalan Educational System and the characteristics of Dual VET. This meeting heralds the beginning of an international collaboration with the Austrian School.

### GREEN ROOFS

Barcelona City Council chose our Green Roofs project from among more than 45 entries to promote the **implementation of new green roofs**. The proposal will give the school a green area where photovoltaic panels and two wind turbines will be installed.

### GREEN BREATH CARRIES OFF THE "RETO EMPRENDE"

Three International Baccalaureate students won the "Reto Emprende" with their Green Breath project, a bracelet that detects levels of pollution and is intended to curb related deaths. The prize was a **trip to Silicon Valley**.

### INCUBATOR AWARD IN THE ENTERPRISE CHALLENGE

The Baccalaureate students who developed the "Take this Way" App were selected to take part in the "Reto Emprende" incubator. The students will have the chance to present their project **at the YouthStart European Entrepreneurship Award 2018** due to be held in Dublin in November.

### STUDENT FAREWELL

Another year ended, and the school said goodbye to students from the Spanish Baccalaureate, International Baccalaureate, Middle-and Higher-Level VET and PFI who completed their education in the 2017-2018 academic year. The management and the teaching staff **congratulated them on their work** and wished them all the best in the future.

June 2018

### MARY HELP FESTIVAL

Once again this year, the school celebrated the memory of Mary Help. The event featured different **recreational and sports activities**. Moreover, all the students and the school personnel were treated to a *butifarrada* in the yard.

### ENTREPRENEURSHIP COMPETITION FINALISTS

Students from the Higher-Level VET in Administration and Finance participated in the **11th Competition for entrepreneurs of the High Pyrenees and Aran** and in the **6th Competition for entrepreneurial initiatives in vocational training** held in Seu d'Urgell.

### FINALISTS AT MSCHOOL

Students and Teachers from the Higher-Level VET in Administration, Graphic Arts and Information Technology were finalists in the **mSchools Student Awards 2018** competition in the APP Education category.

### WRO BARCELONA

For the third year running, we hosted the local Barcelona tournament of the **World Robot Olympiad**, one of the most important educational robotics competitions in the world. This year, 17 teams participated in the Elementary, Junior and Football Categories.

### OFFICIAL OPENING OF THE CO-WORKING SPACE

The school has **opened a co-working space for former students** who wish to carry out their projects and put their ideas into practice. The presentation was attended by representatives of educational institutions.

### STUDENT CONFIRMATIONS

Seven students from the school who participate in the MJS received their confirmation in the **Mary Help shrine** accompanied by various members of the educational community, godfathers and godmothers, family and friends. The celebration was presided over by Assistant Bishop, Msgr Sergi Gordo.

### SPD MAKER, FINALIST IN THE INNOVAFP AWARD

The system created and developed by Mechanics students to fill blisters was a **finalist in the InnovaFP awards (Premio Bankia)** on the closing day of the InnovaFP and "Entrepreneurial Network" Programmes held at the Escola del Treball de Lleida.

### 'SHARE THE LIGHT', FINALIST IN THE BLANQUERNA IMPULSA AWARDS

The school's volunteer project was the **first finalist** in the health area of the **Premios Blanquerna Impulsa** organised by the Universitat Ramon Llull. The competition grants awards to actions targeting sustainable development.

July 2018

### BUILDING A HEN-HOUSE IN 'CITY OF JOY'

The 'Share the Light' expedition built a hen-house in 'City of Joy' that will allow the girls in the home **to improve their eating habits** by increasing their daily protein intake.

### GOOD RESULTS IN THE INTERNATIONAL BACCALAUREATE

86.4% of the students of the first class to graduate from the International Baccalaureate were successful in the Diploma Programme **with a pass rate above the international average** and above the pass percentage in Spain in recent years.

### IB STUDENTS AT SILICON VALLEY

The three International Baccalaureate students and the tutor of the Green Breath project that won the Entrepreneur Challenge **were treated to a week at Silicon Valley**. The team visited the most innovative companies and universities: Google, Stanford University, Netflix, etc.

### SUMMER CLUB

Once again this summer, the school **organised its Summer Club** for children and teenagers whose parents are teachers and administrative and services staff. Workshops, sports activities and handicraft activities were organised throughout June and July.

The educational community:

## PRESS REVIEW

**Promoting educational innovation and entrepreneurship among our students, the media published different reports, interviews and articles about the projects carried out by the students at the school and about the college's activities.**

Green Breath, a bracelet that detects pollution and was developed by students on the International Baccalaureate, won the Entrepreneur Challenge.

**TVE, RAC1, El Mundo, Europa Press and Ràdio 4** are but some of the media that reported the success of this innovative project. Another idea developed by the Spanish Baccalaureate students and that also participated in the competition organised by Obra Social de La Caixa is 'Take this Way', an application for smartphones that can be used to pay for public transport online. **La Vanguardia, ABC, Betevé and Cadena Ser**, among others, interviewed the students that developed this groundbreaking App.

**La Vanguardia** and **El Economista**, among other media, published the project developed by students from the Higher-Level VET in Mechanics. SPD Maker

is a system that automatically fills blisters with medication for chronic patients in order to improve the safety of the process.

Besides the projects carried out by the students, the college also staged different activities, such as the special day about the role of women in technology and a Project-Based Learning workshop that made the news in **La Vanguardia, Educación 3.0 and El Economista**. **Betevé** published a report about The Bosco Run, organised on a yearly basis by Salesians Sarrià.

The **El Periódico** daily carried an interview with one of the students from the college that travelled to Zambia as part of the 'Share the Light' supportive project.

## SALESIANS HUMAN TEAM

Our team is comprised of professionals from different backgrounds that allow us to provide a quality education and support our students throughout their formative years.

Having a team that is close to the students and their families is one of the college's ultimate goals. To this end, throughout the year all groups receive **personalised tutoring and teaching that allows us to adapt to each student** and assist them in their work throughout the academic year. This work is carried out by a team of teachers in collaboration with the Educational Psychology Assessment Department.

Every year, **we work hard to promote our students' values and professional skills in order to prepare them for the future** and to ensure that they will find gainful employment. To this end, our teaching staff promotes aspects such as innovation and entrepreneurship by means of different programmes and activities in the course of the year.

The Salesians Sarrià team is also **comprised of administration and service personnel** who help the students and their families with registration formalities, to participate in the different activities, provide them with assistance throughout the year, etc.

The educational community:

**YEAR**  
2018/2019

**In the 2018-2019 academic year, the college hosted more than 1600 students in post-compulsory education. They all help us to understand current educational and training needs and to learn together in a respectful educational setting.**

In this 2018-2019 academic year, Salesians Sarrià **has 59 groups** distributed across the Spanish Baccalaureate, International Baccalaureate, Middle and Higher-Level VET and Training and Insertion Programmes (PFI). Throughout this education and training, **students enjoy the support of their tutor and of all the teachers involved** in the teaching-learning process and who accompany the young people in their growth.
